Whom body was slok, we gave her Co When she was a Child she cried for Caste CHRISTMAS IN CARSON.

Everybody Happy, and the Dealers Making Money.

The present Christmas seems to have been about as good as ever seen in Carson. It would have been hard to find anybody, great or small, that was dissatisfied with the festival, and what it brought them. The local dealers say never in the history of the town was so much money spent as this year.

George Thaxter & Co, laid in a large stock as an experiment, and report everything cleared out.

Cagwin & Noteware felt a couple to the Reno Reduction Works at of weeks ago that they had overstocked themselves, but now say that they regretted that they did not get more. All their new goods were disposed of.

> John G. Fox is smiling over the success of his auction. The place was packed night and day, and almost everything he had, went.

> Job Sternberg said he had conin Carson.

they sold best qualities of goods the storage of surface water. We for cash, and everybody seemed to should like to see an experiment have money.

Burlington reports the biggest shoe trade he ever saw, and Kitzmeyer, the furniture man, thinks the town has a new lease of life. These are only a few of the men who tell of a flush Christmas. The grocers, butchers, bakers and restaurant men, hotel keepers and all, tell of heavy cash receipts.

The poor were pretty well remembered. The well-to-do families of the city, with few exceptions, made up liberal Christmas baskets for their poor neighbors.

THE WAY TO DO IT.

Some Suggestions by the Dayton Reporter.

The Dayton Reporter has the following to say about the State developement proposition:

If Nevada receives an immigration boom she can thank the newspapers for it. All over the State the papers are working for that end. Columns are printed daily showing the resources of Nevada in their proper light. Matters of interest to the State which have heretofore been ignored are now being thoroughly discussed. Chief among them is irrigation. Some of our exchanges are advocating artesian wells and others the storage of surface water as the proper method to convert our deserts into fruitful fields; but they all agree that irrigation is what is needed to accomplish the desired result. The difference of opinion is a benefit rather than a detriment to the cluded to advertise this year, just cause. It awakens an interest in to see how it worked, and he remarks the matter which would not exist that he never made so much before | if all agreed. Let the newspapers keep up the discussion and perhaps Cohn, Olcovich, Platt, Blumen they will build up a following thal & Cohn, the Hofer Bros., and which will go to work and determine Bergman, are all a happy crowd. which is the better way to irrigate The season was their heaviest, and our lands-by artesian wells or by made in both directions. We think they would both be successful. Where surface water could not be brought upon goodagricultural land artesian wells would of course be the only resort. And where water could be easily stored that method of irrigation would probably be the cheapest one. We have the soil and the climate-all we need is water to make Nevada a paradise on earth. The men who have been made millionaires by the mines of the State should take the the lead in this matter. Some of the dollars Yerington & Bliss distributed which they have extracted from thrown away but money well in-The churches all had splendid vested. It would eventually bring People who would make good citi-The weather was as balmy as zens are waiting to be shown that and settle in our State until we can show them that it is to their interest as well as ours. In other words, we need an immigration bureau, but we should first give such bureau something to go to work upon. A practical illustration of the fact that Nevada lands may be reclaimed by irrigation works or artesian wells should first be made. Irrigation first, immigration afterward.

SAN FRANCISCO.

More Street-Car Troubles Yesterday-in Officer Shoots into a Mob.

SAN FRANCISCO, Dec. 27 .- At an

early hour this morning a number of Strikers on the Geary street cable road assembled at the corner of Geary-Franklin streets with the determination to prevent the cars on that line being run. As soon as the first incoming car reached Franklin Street the strikers made a rush for it, and drove both gripman and conquetor from the dummy car There was but a few passengers on it and they quickly jumped from their seats. No sooner hau they done this than the attackers started the dummy down the line, the only person remaining on board being a police officer, who managed to stop the dummy before any further accident sould happen. The strikers seeing this made a second rush for the car and pelied the offi eer with stones. He drew his revolver and fired several shots into standing in front of a store holding the crowd, injuring, it is stated, a smoked berring by the tail, when some of them. While this was oca bad boy from a window on the curing on Geary street a number of opposite side of the street shot at strikers on the Sutter street line the rustic with a putty blower, the attacked the incoming car on that missile striking the hand in which line and the conductor and gripman met with similar treatment Oue arrest thus far has been made.

-There was a drill and inspection at the Armory last evening, and a hop after the drill The boys triumphant, scornfull voice: "Now displayed great precision both in handling the gun and swinging the girls.
